I will know how to design a mode of
transport

I will know how to design a mode of transport

Last week we found out that a Cartist is an artist who has been commissioned to design art for a mode of transport. We found out that artists Andy Warhol and Roy Lichtenstein were both commissioned to design art for BMW.

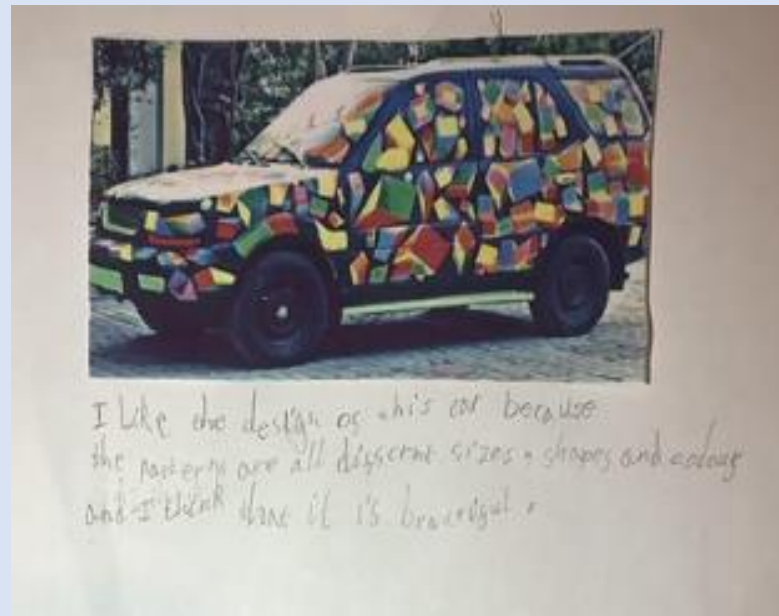

I will know how to design a mode of transport

Here are some examples of your work from last lesson.

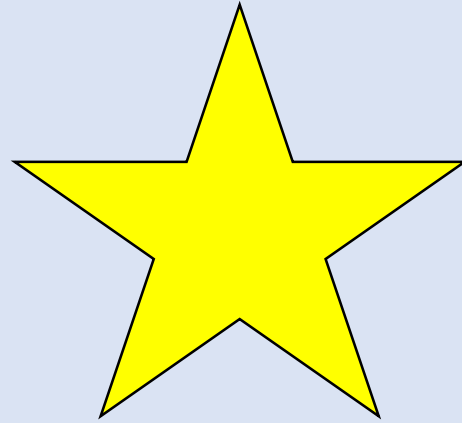

I like the white animal
and the colours on the
car.

I like the brown tree
and green tree.

I like the yellow around
the wheel it makes it
stand out like the animal
and the tree does.

I will know how to design a mode of transport

Later in the term we will be making a mode of transport. Today we will be designing the mode of transport that we will eventually make. A design is a drawing to show what something will look like.

We will be designing a car. You will need to think about what materials you will use to make your car.

I will know how to design a mode of transport

Here are some examples of some materials and resources that will be available to you when you make your mode of transport.

I will know how to design a mode of transport

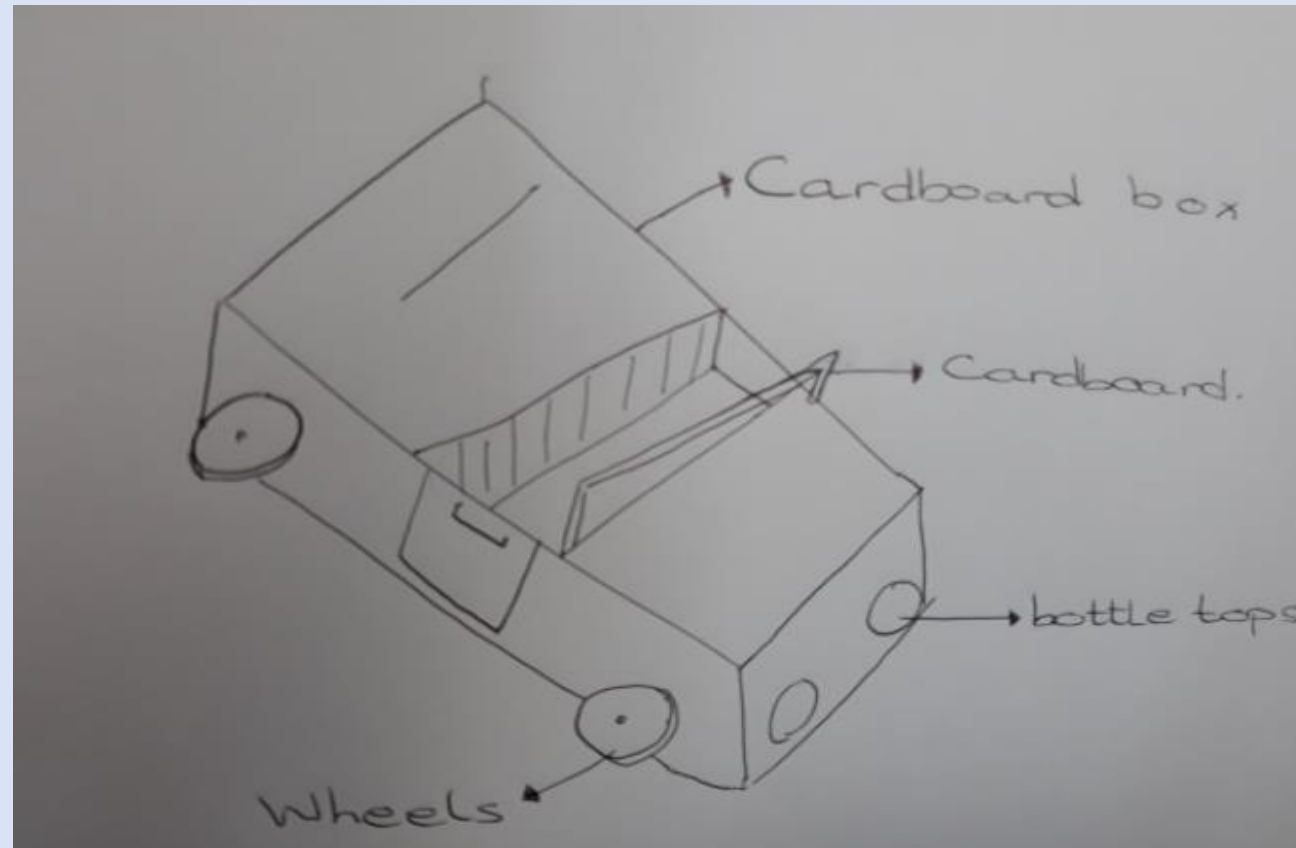

Here are some examples of types of cars that you could make using junk modelling.

I will know how to design a mode of transport

I do

I have designed a mode of transport. I have then labelled my design with the materials I am thinking of using.

I will know how to design a mode of transport

You do

Design your car.

- 1) Choose what you will use to make your car.
- 2) Draw a design of the car you will make using the materials that you have chosen.
- 3) Label the materials that you will use to make your car.

Keep your design simple!
