# What did we do last week?

Last week we drew a whole plant or flower. We then used watercolours or paint to add some colour. Here is some of the lovely work that you have produced.

Georgia O'Keeffe was known for looking carefully at flowers and creating detailed drawings before she added colour using watercolours. She was known for zooming in on part of a flower. Today we will be focusing on just drawing the petals on a flower. We will then use watercolours or paint to add some details and colour to our artwork.

# Today's Task

Today you will be focusing on drawing the petals of a flower. You will look carefully at the details that you can see. You will then use watercolours or paint to add detail and colour to your artwork. Make sure your petals fill the page as you are zooming in on this part of the flower.

Here is some artwork in the style of Georgia O'Keeffe to inspire you.

Whilst drawing and painting using watercolours you can perhaps play some music, make sure you take your time, look for the details. Remember you are creating a close up drawing of just the petals. Don't forget to use watercolours or paint to add colour and detail.

We would love to see your artwork!
