We are going to do one more altogether.

Water ( $H^2O$ ) is a natural liquid that is vital in order to stay healthy, but some people do not drink enough. Many people find it difficult to find time to drink water or they don't like the taste! Did you know that adults should drink at least 3 liters of water a day to keep hydrated? There are many reasons to drink water and here are a few to help you understand.

Overall, no other drink can make you as healthy as water. It helps you keep healthy skin, repair muscle damage and digest food. If you don't like the taste of water, then you can always try adding a small amount of sugar free juice to add a small amount of flavour. Keep your body fighting fit, drink lots of water sip by sip.

## Apply it – Persuasive writing

Using the key ideas we have just discussed, you are now going to complete the independent task in assignments, labelled 28 Jan Guided Reading.

For this task, you will be read the text and answer the questions. Please choose the chilli task you would normally pick at school.

You will be placed into breakout rooms so that you can discuss your task with an adult. Please open your task, read it and ask any questions you have.

Breakout rooms will be closed after 10 minutes and the meeting will end. There will be an adult online so you can re-join the meeting if you have any questions.
