18.1.21

# I will know how to use a map to locate specific places and features

#### **REVIEW**

Tell your grown up what are the 4 countries of the <u>UK.</u>

### Check your answers here;

England

Scotland

Wales

Northern Ireland

# Read the Star words

county

river

course

town

source

mouth estuary

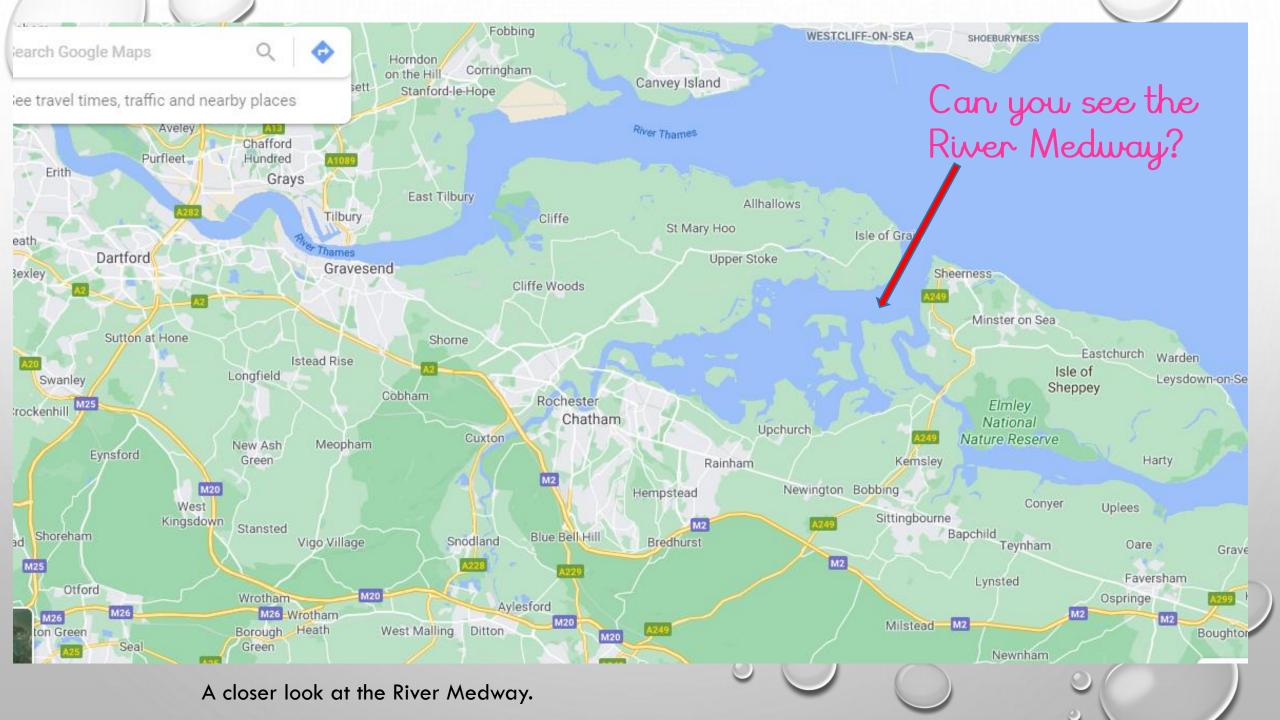

Can you name a river close to where we live? Where is this? Which part of the UK do we live in?

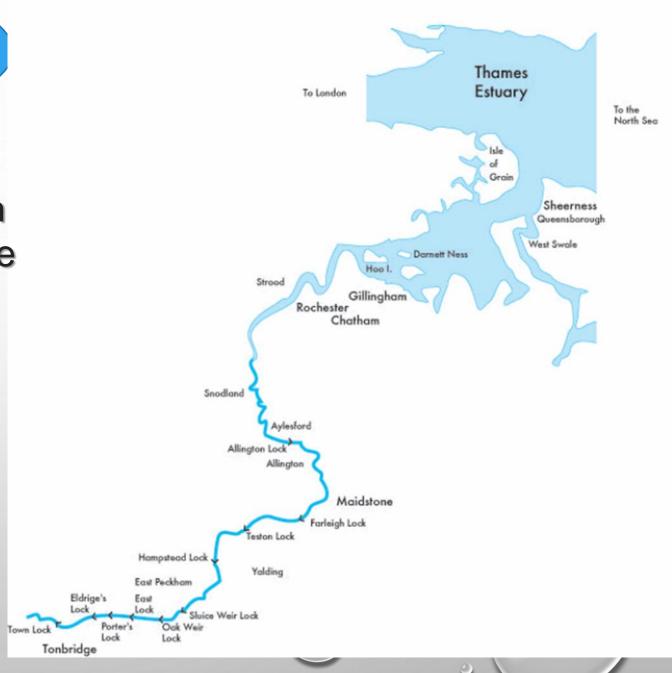

Can you see where Gillingham is?

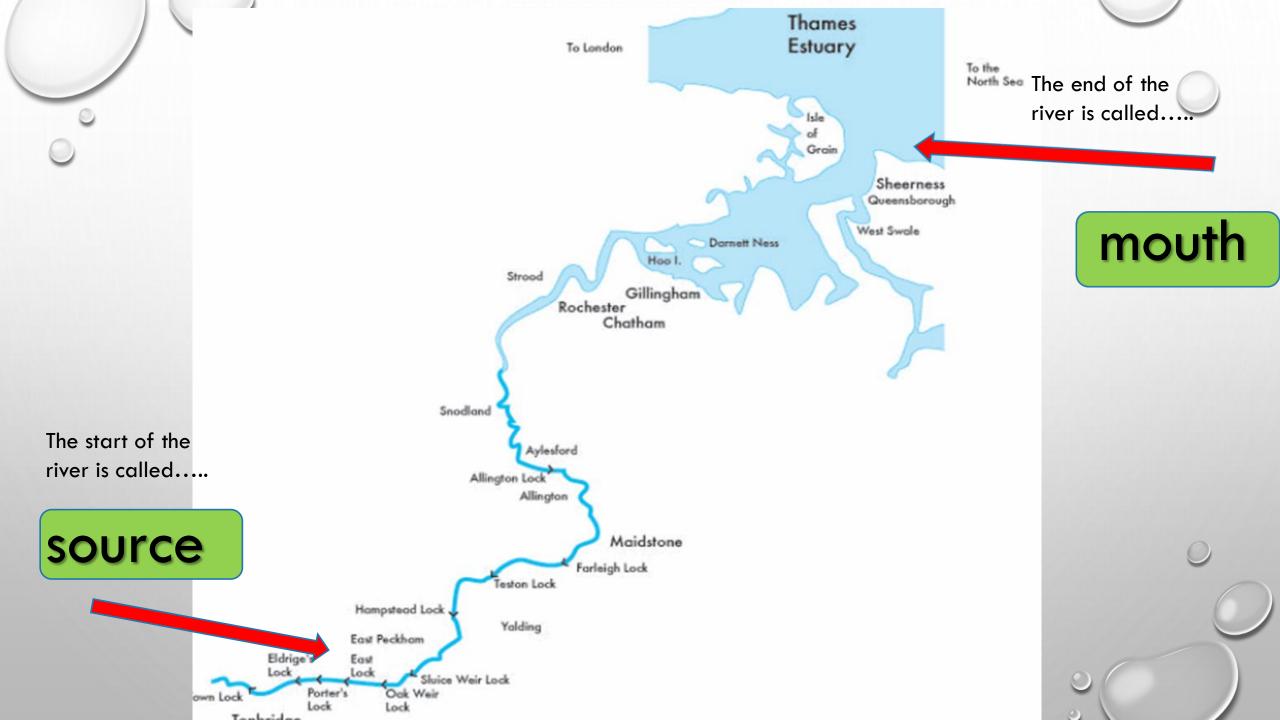

Can you see where the nearest river is to Gillingham?

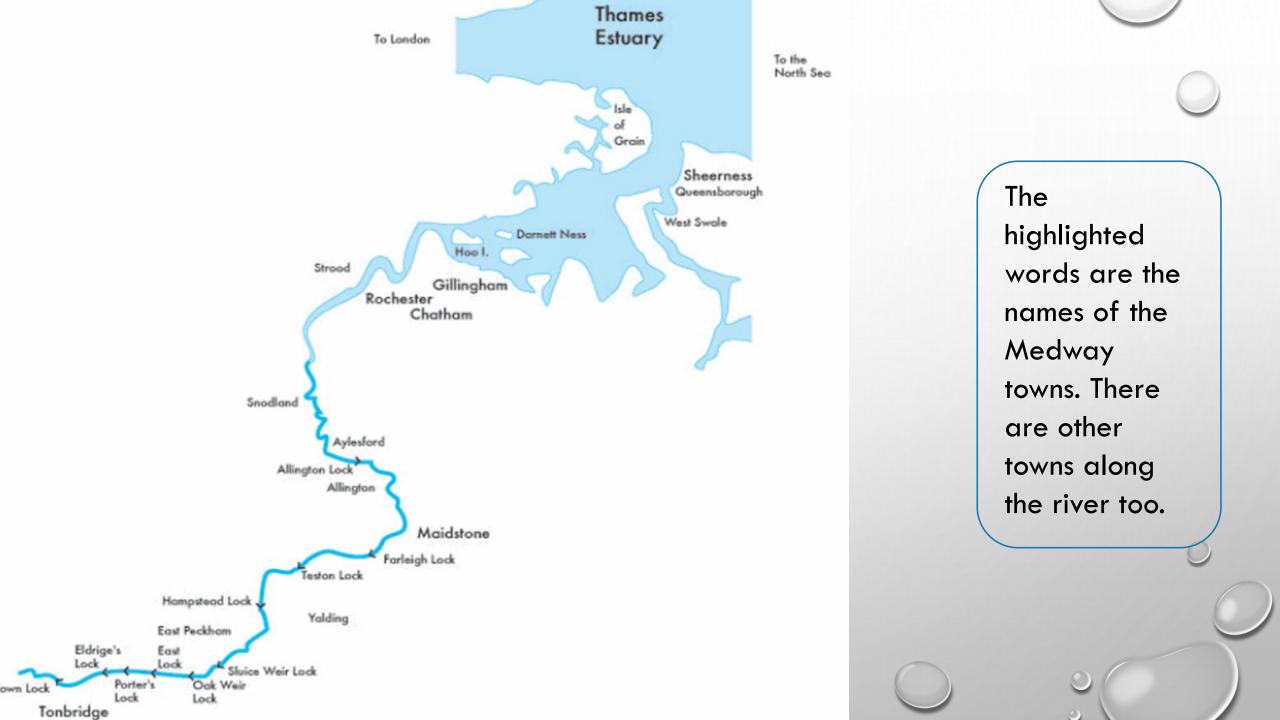

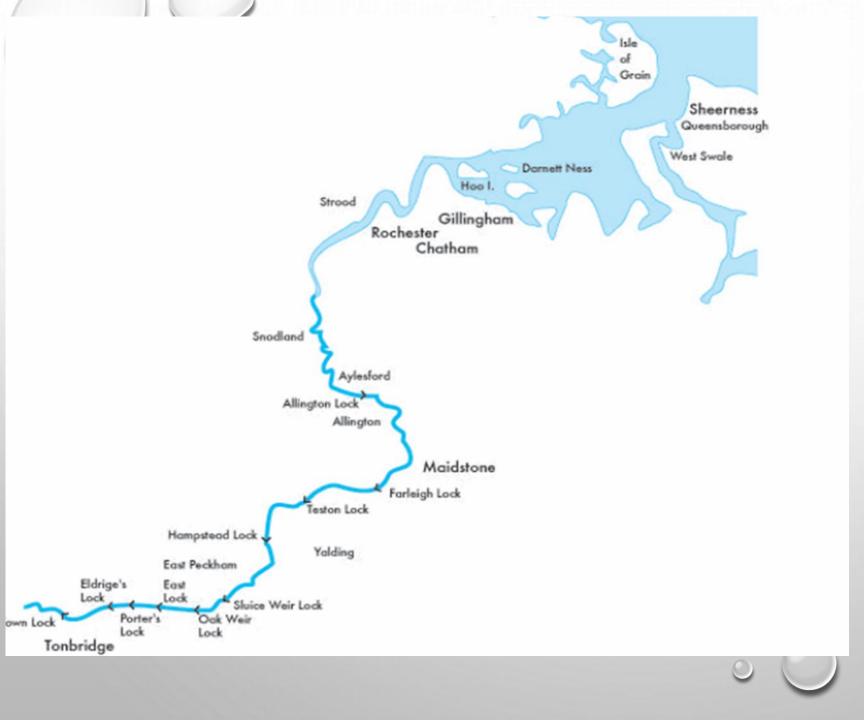

## Did you know?

The River Medway is a river which flows for 70 miles (110 km) from the High Weald in Sussex, through Kent to the point where it enters the Thames Estuary.

The highlighted words are the names of some other towns along the river Medway.

If it has the word lock after it, it isn't a town or village!

#### Your task!

Look carefully at the map and make a list of some of the towns or villages that you can see along the River Medway. If you can take a photo of your list and upload to DB we can check your answers.

If you feel like a challenge you could have a go at drawing the shape of the river before plotting on some of the towns or villages.

In the assignements is a blank map to help you.
