

1) Complete each calculation to match the representation shown.

a)

Tens	Ones

$23 \times 3 =$

b)

Tens	Ones

$21 \times 4 =$

c)

Tens	Ones

$43 \times 2 =$

2) Draw place value counters on each place value chart to represent the correct calculation.

$42 \times 2 =$

$32 \times 3 =$

$\square = 3 \times 21$	$11 \times 5 = \square$
$4 \times 12 = \square$	$\square = 3 \times 23$
$21 \times 4 = \square$	$\square = 32 \times 3$
$\square = 31 \times 3$	$22 \times 3 = \square$

I will know how to times by 3 and 4
