

Welcome to Year 3 live maths lesson

The session will begin at 11.05 a.m

Turn your camera and microphone off please

Wednesday 6th January 2021
REMOTE LEARNING

Year 3 Unit 6: Multiplication and division

Lesson 1: multiplication of three

Mathematics
Mastery

Do now say the counting by 3's song

THREE 3 three	SIX 6 six	NINE 9 nine	TWELVE 12 twelve	FIFTEEN 15 fifteen
EIGHTEEN 18	TWENTY-ONE 21	TWENTY-FOUR 24	TWENTY-SEVEN 27	THIRTY 30

Do Now

Key learning: I will know how to recall the multiplication table of three by skip counting

multiply

skip counting

times

group

multiplication

Star Words

Big picture

What is the picture?

What maths can you see?

Can you see any representations of multiplication?

My turn

How could we find out how many dials there are in total?
Do we need to count them one by one?
Is there a more efficient way?

New Learning

Our turn

$$3 \times \underline{\quad} = \underline{\quad}$$

Your turn

$$3 \times \underline{\quad} = \underline{\quad}$$

What pattern do you notice?

Draw three small circles and we will write the multiplication number sentence at the side of it together

This is 3.

*One group of 3,
this is 3 once*

So we write

$$3 \times 1 = 3$$

Draw three more small circles underneath your first

This is 3.

This is 3 two times

So we write

$$3 \times 2 = 6$$

Draw three more small circles underneath

This is 3.

This is 3 three times

So we write

$$3 \times 3 = 9$$

Draw three more small circles underneath

This is 3.

This is four three times

So we write

$$3 \times \underline{\quad} = \underline{\quad}$$

Draw three more small circles underneath

This is 3.

This is 3 five times

So we write

$$3 \times \underline{\quad} = \underline{\quad}$$

Can you write the next calculation all by yourself?

You have 1 minute

We are counting by 3
So we will begin our
number sentence with
 $3x$

columns go up and down

Rows go side to side

Write the multiplication calculation for each of these sets of counter pictures

$3 \times \underline{\quad} = \underline{\quad}$

$3 \times \underline{\quad} = \underline{\quad}$

$3 \times \underline{\quad} = \underline{\quad}$

$3 \times \underline{\quad} = \underline{\quad}$

Independent task

Feedback

Was there anything you found tricky?

Was there anything you thought you did well with?

How can we help you?
